SUMMARY

Creative and precise professional draftsman assisting engineers in drawing graphs with 3+ years of experience in the field. Equipped with engineering knowledge comprised of a thorough understanding of both external and internal structures.

EXPERIENCE

Draftsman, RD Contract Int'l Limited

Jun 2012 - Present

- Led and compiled 2D and 3D parts, blocks, and details that created more accurate and understandable drawings for 10+ projects
- Monitored and kept track of the potential changes in design phases and updated clients and project managers on the estimated costs of changes
- Performed checks during the engineering and design phases and ensured that they complied with the company's ISO 9001 procedures
- Prepared mechanical illustrations and technical documentation for engineering drawings from preliminary concepts, sketches and engineering calculations

ACHIEVEMENTS

- Managed a full set of detailed technical drawings and material samples for 3+ luxury retail interior projects with revenue of \$800K
- Prepared 2D layouts and 3D shop image drawings of 10+ newly opened local branches in 2013 using Auto CAD and 3Ds MAX
